## THE UNIVERSITY MACE

### Embodiment of Tradition

Formally presented at the May, 1987, commencement ceremonies in commemoration of Memphis State University's 75th anniversary, the University Mace—a ceremonial baton of ancient lineage symbolizing the modern MSU—is a visual embodiment of the traditional pomp and circumstance of the University.

In medieval times, the mace was carried by kings and bishops into battle as a formidable weapon of war. While the mace lost its connotations of war, it became a symbol of leadership and authority in academic circles.

Designed by Memphis State Art Services Director Jim Cloud and sculpted by MSU Art Professor Harris Sorrelle, the mace is a three-foot, 20-pound work. It is topped with a six-sided bronze head five inches in diameter displaying embedded silver disks. The disks on the head trace the history of the University from its beginnings as a two-year teacher training school to its present status as a comprehensive university.

The dates on the disks go back to September 10, 1912, when President Seymour Mynders opened the doors of West Tennessee State Normal School. Since 1912, the institution's name and status have changed four times.

The University Mace will be displayed only at formal events such as commencement ceremonies, honors convocations and other events attended by faculty in full academic regalia.

## HISTORICAL HERITAGE

From the opening of its doors in 1912 as a normal school for training teachers to its present status as one of Tennessee's two comprehensive universities, Memphis State has been thrust forward by the growth of Memphis and the Mid-South. A town oriented to a rural economy and culture in 1900 grew into a large urban and commercial center by mid-century, and the city's public institution of higher learning experienced comparable growth.

The normal school grew from a few hundred students (1912-1925), to a teachers' college with a better staff and an enrollment of up to a thousand (1925-1941), then to a state college with an expanded curriculum in liberal arts, business and graduate education for three to four thousand students (1941-1957), until the institution achieved university status in 1957.

It was not an easy struggle. As the city of Memphis grew and prospered, the demand for a completely developed public university grew. Finally, legislators and board members agreed about Memphis State's role and approved the change urged so forcefully by concerned local citizens, several presidents, alumni and faculty members.

The metropolitan requirements for more highly trained university graduates have, of necessity, caused Memphis State to expand all its offerings in arts and sciences, business, the fine arts, education, engineering and technology, law, and several special professional fields. More than 75 percent of the full-time faculty have earned the highest possible degree in their fields.

As enrollment settles in the 20,000 range, Memphis State is committed to developing programs of the highest quality, for only through such a commitment will it be a standard of quality in higher education for the citizens of the State of Tennessee. Every Memphis State student is expected, upon graduation, to be able to compete effectively with his or her counterparts from any other respected university in the nation.

## ACADEMIC DRESS

*The following information is to help our visitors identify the costumes seen in the commencement procession.*

Academic dress originated at universities in the Middle Ages when a warm gown and hood were necessary in unheated buildings. For centuries these gowns distinguished students from their fellow citizens; sometimes this distinction in dress symbolized unfortunate controversies between "town and gown". The European habit of using academic robes came to this country in the eighteenth century with the founding of what is now Columbia University. In 1895 American universities and colleges standardized their styles of academic costumes, and this system, with occasional modifications, is still in force. Today the various colors, trimmings, and patterns of gown, hood, and cap are all traditional and symbolize both the degree and field of learning.

**GOWNS:** American academic gowns are usually of black material, and their pattern varies with the degree held. The bachelor gowns are relatively simple in design with a closed front and long, pointed, open sleeves. Master's gowns have an open front with long, closed sleeves, the arms extending through a slit at the elbow, giving the appearance of short sleeves. Doctoral gowns are the most elaborate with velvet panels down the open front and three velvet bars on the bell-shaped sleeves.

**HOODS:** The hoods, differing in length for the three degrees (bachelor's, master's, and doctor's), are lined with the colors of the institution that granted the degree. Hoods are also trimmed with the color that heralds the major field of learning.

**CAPS:** A square mortarboard is the approved headgear. The tassel, fastened to the middle point of the top of the cap, is black or the color appropriate to the subject; it may be gold if the holder has a doctor's degree. Memphis State University has adopted the practice of having candidates for the bachelor degree to wear the tassels on the right front side before degrees are conferred and to shift them to the left at the moment when the degrees are awarded to them.

In the last few years many universities have decided to return to a distinctive gown design. For instance, Columbia's is now slate gray, Rochester's a dandelion yellow, Northwestern's is purple. The doctoral gown, with facing of black velvet, now has sleeve bands in the color of the wearer's discipline. Some have replaced the mortarboard with a soft velvet tam with a gold tassel.

Following is a list of the hood and tassel colors that represent several categories of learning.

Arts, Letters, Humanities	White	Home Economics	Maroon
Audiology & Speech Pathology	Dark Blue	Journalism	Crimson
City & Regional Planning	Scarlet Red	Law	Purple
Commerce, Accountancy, Business	Sapphire Blue	Music	Pink
Communication Arts	Silver Gray	Nursing	Apricot
Economics	Copper	Physical Education	Sage Green
Education	Light Blue	Public Administration	Peacock Blue
Engineering	Orange	Science	Golden Yellow
Fine Arts	Brown	Social Work	Citron

All hoods are *edged* with the above colors. These same colors may be used for the facing and sleeve bars of doctoral gowns and tassels on bachelors' and masters' caps.

The *lining* of the hood indicates the university granting the degree—for Memphis State University, blue and gray. Among other institutional colors represented at this commencement are those for Arkansas, red and white; Chicago, maroon; Columbia, light blue and white chevron; Duke, royal blue with white chevron; Emory, navy blue with gold chevron; Harvard, crimson; Illinois, navy blue with two orange chevrons; University of Iowa, old gold; Kansas, navy blue with cardinal chevron; Northwestern, purple with gold chevrons; Ohio State, scarlet with silver gray chevron; Rice, silver above blue; Texas, white above orange; Vanderbilt, black and gold; Wisconsin, bright red; Yale, royal blue.

From modest beginnings in the 1920's, the Memphis State University National Alumni Association (NAA) has grown into a nationwide organization representing over 60,000 MSU alumni and friends. The NAA has enjoyed its greatest growth since 1962 when the Association was first chartered. The NAA moved into the Alumni Center, its beautiful headquarters on the southeast edge of the campus, in 1976.

The Alumni Association is organized to provide aid, assistance and counsel to the University and the cause of education in general, and to promote fellowship among its members. As a graduate of MSU, one is automatically a member of the NAA.

The Alumni Association is governed by an Executive Committee and national Board of Directors selected each year. The Executive Committee meets monthly while the entire board meets approximately three times a year. An annual business meeting is held on Homecoming Day each fall.

The Alumni Center administratively is part of the University's Division of Planning and Public Service. The Center has a seven person professional and support staff.

A wide variety of programs and services are offered to MSU Alumni and friends by the NAA. These include local constituent alumni chapters and out-of-town "MSU Clubs", the Volunter Alumni Counselor student recruitment program, pre-game "Tiger Uproars" and parties, "MSU Days" in West Tennessee cities, a low-cost insurance program, international travel and trips to Tiger athletic events through the "Travelin Tigers" tour program, special alumni-oriented merchandise offerings, reunions, Homecoming, the Distinguished Alumni Awards, the Student Ambassador Board and the official alumni publication, *The Columns* Alumni Review.

For further information, contact the Alumni Center at 454-2701.

## UNDERGRADUATE CANDIDATES FOR DEGREES

### GRADUATION WITH DISTINCTION

Based on a grading system of "A" as 4.0, three designations of graduation honors are recognized.\*

Summa Cum Laude ..... With Highest Distinction

Magna Cum Laude ..... With High Distinction

Cum Laude ..... With Distinction

### GRADUATION WITH HONORS

With the approval of the University Honors Council, Memphis State University offers several departmental honors programs. These programs involve a combination of special honors course work, independent study, and usually an honors thesis or project. Students who successfully complete a departmental honors program are awarded their degrees with honors in their area of concentration (e.g., With Honors in English).

\*Note: Because of time limitations imposed in preparing this program for commencement, listing for graduation with distinction was based on a minimum of forty-five (45) graded semester hours and the grade point average as of the term prior to the final semester. Final determination of graduation with distinction will be based on a minimum of fifty (50) graded semester hours, including the final semester, and on the cumulative grade point average as of graduation.

## THE COLLEGE OF ARTS AND SCIENCES

*Candidates presented by Dean William E. Carpenter, Ph.D.*

The aims and purposes of The College of Arts and Sciences are summarized in these words which serve as part of our official statement in the catalog issue of the University Bulletin: "The program of liberal studies aims (1) to provide students with a store of factual knowledge; (2) to introduce them to varying sets of principles; (3) to stimulate them to think about and to evaluate these facts and principles; and (4) to encourage them to order their own affairs and those of society with the talent, insight, and discrimination which they develop." We have been privileged to pursue these aims with the following students who are candidates for the five degrees which we offer:

### BACHELOR OF ARTS

## THE FOGELMAN COLLEGE OF BUSINESS AND ECONOMICS

*Candidates presented by Dean J. Taylor Sims, Ph.D.*

The Fogelman College of Business and Economics offers only one undergraduate degree, the Bachelor of Business Administration degree. The goal of the undergraduate program of the Fogelman College of Business and Economics is to provide the basic education needed to prepare a man or woman to enter the field of business and to move rapidly from an entry level position to a managerial level of work.

We believe the curriculum which best accomplishes this goal consists of four components. First, a broad foundation of course work is provided in the liberal arts and sciences. At least 40 percent of the work taken by each student in the Fogelman College of Business and Economics is in the humanities, the social sciences, the natural and physical sciences, communications, and mathematics. Second, the curriculum includes a significant amount of study of the economic and legal environment of business and introduces each of the major functional fields of business—accounting, finance management, and marketing.

Third, the curriculum provides for a choice of a major by the student. The student is permitted to select a major from accounting, economics, finance, insurance, real estate, business management, management information systems, marketing, international business, or office administration. Within most areas there is opportunity for the student to select a more specialized area of concentration, such as personnel management, advertising, economic theory, secretarial science, and so on.

Fourth, the Bachelor of Business Administration curriculum offers the opportunity for the selection of free electives. Through these electives, the student may select courses particularly suited to his or her own interests, thus providing an opportunity for the student to pursue in greater breadth and depth the study of business or related fields.

## THE COLLEGE OF COMMUNICATION AND FINE ARTS

*Candidates presented by Dean Richard R. Ranta, Ph.D.*

The College of Communication and Fine Arts is ultimately focused upon visual and audible symbols, whose rational and emotional values it is the mission of the College to create and explore. In the belief that perception is largely shaped by experience, the College of Communication and Fine Arts offers a range of symbolically rendered experiences, both individual and collective, in the hope of broadening and sensitizing the perceptions of its students.

Through its various professional courses of study, it prepares students to work toward careers in the fine or applied arts, communication, or the performing arts, whether as practitioners, teachers, artists, or consultants. The College offers three degrees by which to accomplish its purposes:

### BACHELOR OF ARTS

Candidates for the oldest of the traditional baccalaureate degrees are students who have majored in art history; journalism with concentrations in either advertising, broadcast news, public relations, or news editorial with emphasis in magazine, newspaper, or photojournalism; applied music; music history and literature; or theatre and communication arts with concentrations in broadcasting, communication, film and video tape production, general speech and theatre, or theatre.

## THE COLLEGE OF EDUCATION

*Candidates presented by Interim Dean Jerry N. Boone, Ph.D.*

The College of Education pursues six stated goals to help the University achieve its basic purpose, the advancement of learning. One of the six goals is highlighted at each commencement. This goal is "to provide preparation programs which produce teachers and certain other professional personnel sufficient in quantity and competence to help meet the needs of the state, region, and nation."

The several undergraduate preparation programs provided by the College of Education lead to three baccalaureate, professional degrees: the Bachelor of Science in Education, the Bachelor of Music Education, and the Bachelor of Science in Home Economics.

Each of the degree programs consists of three basic components. General Education courses comprise approximately 45% of each degree program. Professional courses make up from 25% to 40% of the total, depending upon the particular programs followed. The remaining portion is used to develop one or more specializations.

In addition to their prescribed courses, graduates of the various degree programs are required to meet criteria related to their personal and professional fitness for their chosen careers. Field-based laboratory experiences are included in all preparation programs in the College.

### BACHELOR OF SCIENCE IN EDUCATION

Candidates for this professional degree have studied in programs covering five broad fields: curriculum and instruction, distributive education, health and physical education, home economics education, and special education and rehabilitation. These several teacher education preparation programs cover eleven majors which, in turn, are subdivided into some forty academic teaching endorsements. The College of Education also offers through this degree majors in the non-teaching fields of recreation and park administration, rehabilitation education, and educational services.

## THE UNIVERSITY COLLEGE

*Candidates presented by Dean H. Ramsey Fowler, Ph.D.*

The mission of University College is to serve the educational needs of students whose career and personal goals require the development of non-traditional, interdisciplinary, individualized, degree program.

With its emphasis on interdisciplinary education which bridges the departments, University College offers to students and faculty alike an educational experience which uses new means to achieve old goals—the close relationship between life and study, the interrelatedness of human knowledge, and the application of that knowledge to the important issues of our time.

The degrees awarded by the College are the Bachelor of Liberal Studies and the Bachelor of Professional Studies.

## THE SCHOOL OF NURSING

*Candidates presented by Dean Norma J. Long, D.N.Sc.*

The School of Nursing offers an opportunity for graduates of associate degree and diploma programs in nursing to earn a Bachelor of Science in Nursing degree. The professional component of the program is designed to expand and enhance the earlier nursing background acquired by the student and to build on a broad general education base in the liberal arts and sciences. The purpose of the program is to prepare graduates for beginning professional leadership roles in the provision of comprehensive nursing care to individuals, families and groups in a variety of health care settings. The program is approved by the Tennessee Board of Nursing and is accredited by the National League for Nursing.

## THE DEPARTMENT OF MILITARY SCIENCE ARMY ROTC DETACHMENT CANDIDATES FOR ARMY COMMISSION

The Army ROTC Department of Military Science offers a two-year and a four-year program of study in leadership and management leading to a commission as a Second Lieutenant in either the active Army, the National Guard, or the Army Reserves. These programs are open to men and women.

*The four-year program* consists of the Basic Course, normally the Freshman and Sophomore years, and the Advanced Course, normally the Junior and Senior years. The Basic Course prepares students for the Advanced Course and provides an education in citizenship, basic leadership and management skills, and enrichment experiences required to become an effective junior officer. The student learns about the wide range of Army career specialties. Advanced Course students normally attend a six-week leadership practicum called Advanced Camp between their Junior and Senior level of the Advanced Course. This camp is conducted at an Army installation. Students are provided uniforms, room and board, medical care, travel to and from camp and are paid approximately one-half the pay of 2/LT while at camp.

*The two-year program* consists of the Advanced Course only. Selected students may qualify for entry into the two-year program at the Advanced Course level by completing a challenging six-week basic leadership experience during the Summer at Fort Knox, Kentucky. Veterans, National Guard or Army Reserve personnel, and students who have completed 3 or more years of Junior ROTC may also qualify for advanced placement into the Advanced Course.

In addition to courses offered for academic credit, the Army Military Science program sponsors extra-curricular activities. The Tiger Ranger Company, Drill Team, and Color Guard are open to all Army ROTC students.

Students are eligible to participate in Army ROTC sponsored activities held throughout the school year. These challenging adventure activities include backpacking, field training, mountaineering, rappelling, land navigation, orienteering, and survival training.

## NATIONAL ANTHEM

Oh, say can you see by the dawn's early light  
What so proudly we hail'd at the twilight's last gleaming,  
Whose broad stripes and bright stars through the perilous fight  
O'er the ramparts we watch'd were so gallantly streaming?  
And the rockets' red glare, the bombs bursting in air,  
Gave proof through the night that our flag was still there.  
Oh, say does that star-spangled banner yet wave  
O'er the land of the free and the home of the brave?

## ALMA MATER

Stand firm, O Alma Mater,  
Through all the years to come;  
In days of youth and beauty  
Thy halls have been our home.  
In time of preparation  
Great lessons didst thou teach  
Til now, O Alma Mater,  
The stars we'll strive to reach.

## THE PRESIDENTIAL MEDALLION

### Symbol of Authority

Memphis State University's Presidential Medallion and Chain are symbolic of the authority vested in the Office of the President by the Board of Regents of the State University and Community College System of Tennessee. Only the president may wear them as a part of official University functions.

In effect, Memphis State University has assumed a tradition begun in ancient Rome and carried into the religious and academic world of the Renaissance, when chains of office and medals, or medallions, were used to signify position, authority and trust.

In keeping with academic tradition, Memphis State's ceremonial Presidential Medallion combines the school's seal with a chain honoring past presidents of the University.

The medallion is a duplicate of the school's seal, 4.5 inches in diameter, and has a base of sterling silver. It is trimmed in 14-karat yellow gold.

The obverse contains three symbols—the open book of scholarship, the handheld torch of knowledge and a river steamboat that symbolizes Memphis. All are raised in 14-karat gold and trimmed in blue and gray enamel. A precious stone is mounted in the wheel of the steamboat.

The reverse is engraved in silver with presentation and inauguration information.

Each link of the decorative chain has a sterling silver base with 14-karat yellow gold trim. Within the trim is blue enamel surrounding a silver plate engraved with the name of a past president. The reverse side of each link is engraved with the tenure of the specific president.

The Presidential Medallion and Chain were gifts to the University by a distinguished, select number of alumni and friends. Designed by Tom R. Collins, former MSU director of art services, in 1974, the medallion and chain were crafted by Memphis jewelers Endicott Nelson & Sons, Inc.
